

School Subjects and Teachers

1. Write the name of each subject in Spanish.

English -

French -

Spanish -

German -

Maths -

Art -

Design Engineering -

Music -

Drama -

Religious studies -

Computer science -

Geography -

Physics -

History -

Chemistry -

Business studies -

Biology -

Physical Education -

2. Translate to Spanish.

I love biology because it is very creative and quite easy. I also prefer P.E. because it is fun and healthy. However, I don't like maths because it is too difficult and a bit boring. My science teacher is as friendly as my geography teacher, but my maths teacher is more strict than my English teacher. My P.E. teacher is young and hard-working, and I think he is very nice. When the weather is good, we sometimes do sport outside, and I really enjoy it.
