

# Numbers

1. Write out each maths question and answer in French, using **actual words instead of numbers**:

$1 + 1 =$

$9 + 5 =$

$6 - 2 =$

$7 + 8 =$

$5 \times 4 =$

$7 \times 3 =$

$31 - 18 =$

$17 + 9 =$

**Challenge:** Find out how to say fractions and decimals in French, are there specific words for quarters or thirds?

2. Write out the **birthdays** of you and a few of your friends **in French**:

---

---

---

---

---

---

---

3. How many of each fruit are there?

Can you find out the French names for the fruits?

Bananas:

Strawberries:

Blueberries:

Kiwis:
